

THABO TSHABALALA

3+ Years of experience | Full-Stack Software Developer | Laravel | Next.js | TypeScript | AWS

Gauteng, South Africa | 074 510 3359 | 47thabo@gmail.com | thabo-tshabalala.vercel.app

PROFESSIONAL SUMMARY

Full-Stack Software Developer with 3 years of professional software development experience building secure, scalable web applications and financial-sector systems. Delivered multi-tenant architectures, role-based access control, dynamic custom forms, progressive web app (PWA) functionality with offline support and automatic data synchronisation upon reconnection. AI integrations and workflow automation. AWS Certified Cloud Practitioner.

TECHNICAL SKILLS

Languages: PHP, TypeScript, JavaScript, SQL

Frontend: Next.js, React, React Native, Blade, Tailwind CSS

Backend: Laravel, Node.js, REST APIs, Authentication & Authorization

Databases: MySQL, SQL, MongoDB

Cloud & DevOps: AWS, CI/CD, Docker, Linux, Git, GitHub

Testing & Tools: Playwright, Postman, Jira, Figma

Architecture: Multi-tenancy, RBAC, Business Workflows, Custom Forms, Offline Sync, Automation, AI Integration

PROFESSIONAL EXPERIENCE

Junior Full-Stack Software Developer | Promilezi | Sunninghill, Gauteng

May 2024 – Present

- Delivered full-stack features for financial-sector systems using Laravel, MySQL, Next.js, TypeScript and Blade, supporting secure business workflows and operational dashboards.
- Implemented multi-tenant architecture and tenant-separated data access, enabling shared application infrastructure while maintaining tenant boundaries.
- Built dynamic custom forms and configurable form fields, allowing business workflows to adapt to different data requirements without hard-coded screens.
- Implemented offline functionality with reconnection synchronisation, allowing users to continue working during connectivity interruptions and sync changes when connectivity returned.
- Integrated AI capabilities into application workflows to improve how users interact with and process business information.
- Automated repetitive business workflows and system processes, reducing manual handling and improving operational consistency.
- Implemented and maintained role-based access control and permission logic for secure access to financial-system functionality.
- Supported payment-related workflows and secure API behaviour across full-stack features.
- Built responsive interfaces with Next.js, React/TypeScript, Blade and Tailwind CSS, improving usability across desktop and mobile experiences.
- Applied Git workflows, code reviews, Jira sprint planning and Playwright testing to support maintainable, team-ready software delivery.

Software Developer Intern | Ground Up Grinders | Midrand, Gauteng

October 2023 – April 2024

- Led an 11-person intern development team by organising tasks, coordinating progress and supporting delivery.
- Managed GitHub repository workflows, including code reviews, branch merges and version control practices.
- Designed mobile application wireframes and user flows in Figma, translating requirements into clear UI/UX concepts.

SELECTED PROJECTS

[ProSuite](#) - Enterprise Management System | AWS, Next.js, Laravel, MySQL

Financial/business management platform demonstrating production-oriented full-stack and cloud development.

[TM System](#) - Property Rental Management System | Laravel, Blade, MySQL, Laravel Breeze, Spatie Roles & Permissions

Management platform covering landlords, tenants, invoices, sites, maintenance and tenant applications.

[Multi-tenancy Scaffolding](#) | Next.js, Laravel, MySQL, Spatie Multitenancy, Spatie Roles & Permissions

Dedicated project demonstrating tenant isolation, role-based permissions and multi-tenant application architecture.

[Lobster Clan](#) | React, Node.js, MongoDB

Restaurant web application with reservations, menu browsing and responsive customer experience.

[Portfolio](#) | Next.js, Framer Motion, Tailwind CSS

Personal developer portfolio showcasing full-stack capabilities, projects and technical expertise.

CERTIFICATION

AWS Certified Cloud Practitioner | Amazon Web Services | 2026

EDUCATION

Diploma in Software Development | Tshwane University of Technology

- Relevant areas: Programming, Mobile Development, Database Development & Administration, Business Analysis and Modelling

National Senior Certificate | Kgadime-Matsepe Secondary School | 2016
